THE SULTAN OF JOHORE'S TYPISTS.

The following letter, which was published in the Sydney Duily Telegraph, of October 15, will serve to show the influence which was set at work to secure the roturn of the two Australian girls, Misses Hands and Jackson, who were recently prevented at Singapore from going to Johore as typists to the Sultan : - Sir,--Having read the article in to-day's issue of The Daily Telegraph referring to two Australian girls who left Sydney under engagement to the Sultan of Johore, and the, circumstances attending their arrival at Singapore, may I he allowed to state a few facts in connection with the matter. When it came to the knowledge of a member of the Young Women's Christian Association that these girls were the 23rd November, 1903, commencing each leaving, steps were at once taken to warn them of the risk they ran and endeavor by all means to dissuade them from going. The relatives were seen and urged to take decisive measures, the girls themselves were expostulated with on board the Clifus but all to no purpose, as they wore bent on fulfill-OLD BRONZES and SILVER MOUNTED | ing their ongagement. As a final measure of precaution letters of introduction to the Y W.C. A secretary at Singspore were given them, and this lidy was also communicated with direct. The carnestness shown by the Y.W.C.A. workers, although apparently lost upon the girls, at, length aroused the parents to take action, and the nutborities at Singapore were communicated with, with the result strendy shown .- Yours, etc., A. MI. L. MAYERS, Gen. Secretary, Y.W.C.A.

The German Navy.

The strength of the personnel of the Imperial German Navy has been fixed at 38,000 men for the Budget year 1904. It amounted to 35,500 for the current year, and to 19,000 in 1893. A corresponding increase has taken place within the last ten years in the Naval Officers Corps, while the Engineers Corps has had to be trebled.

Rheumatism Relieved

recommend a trial of Chamberlain's Pain Balm. One application will relieve the pain, and its continued use for a short time will result in a cure. Promptly applied to a sprain before inflammation sets in, insures a cure in about one-third of the time otherwise required. One application gives relief. THE TURN OF THE WORM.

1. X. 1. 1

The N.-C. Daily News of November 7 publishes the following :-- The following important circular telegram was issued by the Grand Council on Thursday (Nov. 5) to the various Viceroys and Governors of provinces with reference to the strained relations between China and Russia regarding Manchuria: - Diplomatic relations with Russia certain to be broken. Make every haste to mise funds and troops in anticipation of immediate hostilities,' The telegrams to the Viceroys of the Liangkiang (Wei Kwang t'ao at Nanking), i Hukuang (Tuan Fang at Wuchang), Min-Che (Li Ming-cheng at Foochow), and Two Rwang (Tsen Ch'un-hauen at Canton), provinces had the additional words,-*Keep careful guard of your maritime and } riverino defences and let not the mistakes of former years be repeated,' referring doubtless to the French attack on the Chiness fleet at Pageda Ancherage, Foschow, in August, 1884. In consequence of these telegrams there has been some excitement in local mandarin circles, the general feeling, however, being one of pleasure that something decisive has at last been done with regard to the Manchurian question which has been in suspense so long.

WHY CHINA HOLDS BACK.

Private telegrams received at Shanghai from Peking state that Viceroys Yuan Shih-k'ai and Chang Chih-tung have had repeated private audiences with the Emperor and the Empress Downger and a careful report was called for and given by the two Viceroys us to the present military resources of the Empire in the event of the by the China Navigation Co.'s s.s. Changbreaking out of hostilities against Russia. In the meantime large numbers of young with Fussia and are volunteering for active pats), CHEESE, BACON and HAM. service. The officials are, however, trying their best to keep all this secret, for fear of arousing the premature arger of Russia. The general feeling, of the Mandarinate in the provinces is that China ought to tight Russia for Manchuria, but for a lingering fear that the should be left in the lurch by Japan and made to fight Russia alone and unassisted. In this case the end would be worse than the beginning. Let China he properly assured by her friends that she will be sided in her war with Russia, then the world will find a united China opposed to Russia. The present drawback to China fighting Russia alone is the former's want of adequate arms and ammunition and properly disciplined erinies.

Cruelty to Poultry.

There is probably no more familiar BLEND sight on our streets than the cook or cook's mate carrying home the provisions for his master's dinner. Who does not know the basket-usually a very small one-slung on the end of his pole or carried in his hand, in which all that is to tickle his master's pa late is mixed together in picturesque, unhealthy confusion? Bread rubbing shoulders with onious, garnished with fish ice and vegetables more often than not an the whole crowned with a live chicken or two tied down by the legs and aquawking lustily. Long familiarity with this sort o thing has made us callous alike to the dan gers we run from the free distribution of disease bearing germe emanating from the five stock thus carried, and the gretched bird. It is a marval that one has ever attempted an improvement in the system. No doubt this is main enced in inducing cooks to depart from 'olo custom' for better and more cleanly

methods. With a view to effecting this much-to-be-desired improvement the Hong. False Reports.

As illustrating the difficulties which The Japanese bankers are urging the beset the detective force in Hongkong through false reports coming in, the following will be interesting. Yesterday morning a report was made to the police that \$195 had been taken from a shop drawer. The thief was alleged to have been seen! passing out through the door, but nothing further could be given in the way of information. Detective Sergeant Wilden was put in charge of the matter, and noted several slight contradictions in the accounts giren by the eccupants of the shop. He then visited the house, and examined the drawer. It was then looked, and no traces that any violence had been used on it could be found. The key was in the custedy of the manager of the establishment and had not left his possession. It saemed, therefore, that the thiof had carefully locked It is reported that the Russian war, the drawer before bolting with the each, a proceeding which to say the least, was also examined each man separately, with the result that the manager admitted that the report was false. IN SUMMARY JURISDICTION. Before His Honour Mr A. G. Wise, Puisne Judge).

Tuesday, November 17.

A SEA WALL DISPUTE.

In this action, which has already been before the Court twice, Chan Chin Hop. Tsang Hoi and Wong Kong sued Chan Fuk for \$70) damages suffered by the plaintiff through the breach by the defendants of a contract for the erection of a sca

The particulars of the claim were as follows :- To six months rent of ground at 870 per month from Nov. 10, 1902, to May 10, 1903, \$421; To cost of pulling down and erecting defective-wall built by de fendants \$280, total \$700. Mr Goldring (of Messrs Deacon and Hastings) appeared for the plaintiffs, and Mr Grist (of Messes Wilkinson and Grist)

represented the defendant. An architect was called for the plaintiffs. and said that he was called in to inspect defendant's work by the plaintiff. He also stated that the plaintiffs had not cumped sufficient stone for the foundation of the

Mr Grist said that it seemed to him that the matter was now finished. At the last hearing the Judge held that the claim for \$280 could not be maintained, because it was simply one man's word against another's that the work was done under the supervision and direction of the plaintiffs. The evidence of the last witness proved that the plaintiffs had not carried out their part of

Mr Goldring said that he understood that the case practically turned upon the point as to whether or not the defendant carried out the work under the direction of the plaintiffs. He submitted that the last witness had proved that defendant was working in an independent manner and the mere fact of the plaintiffs having sent for the last witness to act as arbitrator showed that defendant was not working under the direction of the plaintiffs. Defendant had the adjoining lot to build and fill in, and by turn ing this wall as he did, he could easily add the additional piece when the adjoining let reasonable explanation of defendant's conduct in so building the wall. . His Honour said that two points he been raised by the defendant's solicitor; one was Res Judizata, which he decided against, and the other was that the con tract was rescinded, which he also overruled. At the last hearing he said that one man's word against another's was not sufficient to find for the plaintiffs. Another witness was called, but he seemed to have upset the plaintiffs' case altogether. The defendant's story was that the plaintiff's had not dumped sufficient stone for the foundation, and said End your wall there, and run-The plaintiffs denied that evidence, but the last witness stated that he had not dumped sufficient stone. CANTON NOTES.

(From Our Own Correspondent.) CANTON, November 16. THE NEW BAILWAY.

The event of most importance to note is the formal opening of the Canton-Fatshan section of the railway, but as your special representative was present it is not necessary for me to say much concerning it. Considerable surprise has been expressed that the officials should have selected Sunday for the opening day. Naturally the missionaries condemn such action as being out of keeping with the character of Christian nation. The Rev. R. E. Chamwas tinished. This, he contended, was a bers gave slight expression of his disapproval in his sermon at the Union Missionary Service yesterday (Sunday) evening. But this attitude is not confined-Mr Goldring, continuing, said that his to the missionaries, "I have heard similar

AMOY NOTES.

(From Our Oun. Correspondent.) AMOY, November 4.

ECHOES OF LAST WEEK'S GALE. Furthur investigation as to the damage wrought by the violent gale of last Tues day, 27th ult., proves that it was unusually (including interest to 28-2.99) 97,849.92 great among the Chinese fishing fleets up and down the coast. Exact statistics are, of course, unobtainable, but the sampan men plying in Amoy harbour speak of 80 lishing boats having been wrecked between Amoy and a point on the coast some sixty miles noul) called Chiong Bu. Even if thi is an exaggerated estimate, it shows at any rate that a good many vessels were caught unawares, and suffered severely, not without serious loss of life. The steamers entering the port since the gale; both from North and South, also report seeing many wrecked junks and fishing boats, and in some cases they managed to effect a rescue The gale came on so suddenly that the Chinese were caught unprepared, and had not time to run for shelter before it burst upon them in all its fury.

EMIGRATION TO THE STRAITS.

After a somewhat slack sesson in the spring and summer, owing to plague and cholera, &c, the emigration of coolies to Singapore, Penang, Rangoon, &c, is now in full swing again, a large number of atenmers having visited us during the past month or so, and the cry is, 'still they come.' Each steamer takes away a large consignment, and yet there are always more to follow. One wonders sometimes where the coolies all come from, and whether the supply is absolutely unlimited., Undoubtedly the immense numbers that leave the port make very serious inroads in the population of some districts up country. I know several places where there is a great outcry for want of labourers to till the fields, and for load-carriers, so much so that many acres of rice-field; have gone out of cultivation, and the cost of carriers and day. labourers has advanced considerably. The British India Steamship Co. has also taken to sending boats here lately, and their steamers are among the largest that visit the port, and they can take over 100 coolies easily. So great however is the demand for steamers, and so large is the number waiting to emigrate that we eften have three steamers in harbour at the same time, as, for instance, to-day, when the s.s. Hong Wan I, the s.s. Chan Chew, and the s.s. Jelunga, are all here together.

NAVALINEWS. On Sunday last, Nov. 1st, the British Surveying Vessel, s.s. Rambler came into harbour, and is to stay. I hear, for some two months, in order to survey the outer harbour. Then ou Monday, 2nd, the Japanese Cruisor, s.s. Majako, entered tho port, specially so as to be here for the celebrations on the Japanese Emperor's Birthany. It will not stay long.

BIRTHDAY PESTIVITIES. Yesterday, 3rd, Nov., being the 51st Anniversary of the Birthday of H.I.M. the Emperor of Japan; there were festivities at the Japanese Consulate on Knlaugsu. with Fireworks. The Man of war was decorated with flags and evergreens, and there was a big social function on board in the evening. All the houses inhabited by Japaneso were also duly decorated in honour of the event. Our newest ally is nothing if not up to date .

AMOY HORTICULTURAL SOCIUTY. Owing to the unusual lateness of the season, it has been found necessary to postpone the Chrysanthemum Show from Nov. 9th to a week later, Nov. 10th, when it is to be held on the Tennis and Cricket Lawn, Kulangsu, and to be open to the Public from 2 p.m. Messrs Gardiner, Hempel, and Dr. McDoug all form the Committee, while Lt. Col. Mackenzie, S. Uyeno, and one other are to be the Judges, with Mr W. H. Wallace as Hon, Sec. and

MURDER AND ATTEMPTED SUICIDE. Kulangau folks were startled the other day by the news of a brutal murder in their midst. A Chinaman, in a fit anger, struck his wife on the side of the head, from the effects of which severe blowshe filed almost immediately. Frightened at what he had done, the man tried to twenty odd times against the walls and floor, with the result that he actually managed to batter in a portion of his skull, but without killing himself. He is now being treated by Dr C. O. Stumpf, at the Hope Hospital, Kulangau, and is getting probably be tried for murder and attempted snicide. It is admitted, however, that he had great provocation, as his wife was

He trudged into that famous home of wild-ayed men and wild cats with 3000 d mented desciples 'at his heels and endeavoured by force of elequence and all sorts of threats to squeeze dollars out of the pockets of the scripholders and sinners. Dowie admitted that he was after money, and gave out the refreshing assurance that those who refrained from giving it would wither away and lose all presperity. That made the speculators hang on to their money all the tighter. They reckoned on having a fine old final flutter with 'Meat Trusts,' or 'Oils,' or 'Great Pacifics' or Pierpont Morgans was that Dowle, instead of locsening the money market tightened it considerably. Below is the challenge which 'the real Messialt' sent to Dowie in September 1892 and which stands open for seven months after August 23, 1903, the date the pamphlot quuted was written. It was an answer to Dr Dowie's prediction that all Mohammedans would perish since they did not recognise Jesus Christ as God and Dowie as Elias. In answer to this, the Promised Messiah, wrote: 'Whether the God or Dowie is the true God may be settled with-Dowie's prediction would involve. That method is that without threatening the Mohammedan public in general with destruction, he should choose me as his opponent and pray to God that of us two whoever is the liar may perish first In making this proposal, I have not taken the initiative but the jenlous God has commit suicide by hammering his head inspired me upon Dr Dowie's presumpthous prediction that all Molianmedans shall perish. Hongkong Tides. The tide table given below has been compiled at the Nautical Almanae Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Tsim Sha Tsui during the years 1887-8-9. The zero of the table corresponds with

the zero of the soundings in the Admiralty Charts which has been found to be 4 feet inches below mean sea level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 3 feet 4 inches, and on the gauge at Lamont Dock, Aberdeen, add 10 feet 6 inches to

the height given in the table.
